Miami, Florida 33128-1984

Dear Lazaro:

I wish to thank you and the FAPA for the good work in understanding the challenges and needs of the apiary industry. By this letter, I am confirming that the Florida State Beekeepers Association supports the guidelines for assessment of apiary properties as proposed. As we move forward and unforeseen scenarios may appear, I am confident we can work through these as well. It has been a pleasure to work on this project and feel free to call on us should the need arise.

Sincerely,

Tony Hogg
President
Florida State Beekeepers Assn
